AFH - ebi Global Factor 60 - RG S

A Sub-Fund of the SICAV AFH

ISIN code: (D) LU3298821953

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The sub-fund's investment objective is to generate long-term capital growth.

The Sub-Fund is a fund of funds that will invest its assets in UCITS/UCIs having an exposure to the following asset classes:

- between 40% and 80% of its net assets in equity and equity-linked instruments;
- between 20% and 60% of its net assets in debt instruments. Within this limit, the Sub-Fund may invest up to 10% of its net assets in non-investment grade debt.
- up to 30% of its net assets in emerging markets considering combined exposure to equity and fixed income assets and across a broad range of sectors.

The Sub-Fund may use derivatives for hedging purposes.

Benchmark : The Sub-Fund is actively managed and is not managed in reference to a benchmark.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus.

The Sub-Fund will be managed in accordance to the established investment policy to attain the stated objective.

The Investment Manager, with the guidance of the Investment Advisor, will take into consideration the macro asset allocation views when constructing and managing the Sub-Fund on an ongoing basis. However, the team manages at all times the Sub-Fund according to the stated objectives and established investment policy.

The Investment Manager performs stringent due diligence before on-boarding a fund into the portfolio allocation and monitors the evolution of this fund through quantitative and qualitative screenings.

The Sub-Fund's investment philosophy follows a rules-based multi-asset investment approach using passive instruments resulting in a highly diversified and low cost solution with factor exposures. This process begins with the global equity and investment-grade fixed income market which is screened according the ESG methodologies of the underlying funds. The eligible equity universe is then tilted towards carefully selected factors that academic research suggests generate a premium in excess of the equity market over the long-term.

The Sub-Fund may target increased exposure to specific factors such as, among others, Momentum, Value, Size, Minimum- Volatility and Quality.

The distribution share pays dividends biannually.

The minimum recommended holding term is 3 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund reflects the risk of its allocation, which is exposed to the bond market and the equity market in roughly equal proportions.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
